August 9, 2022

Today, our security crisis management team intervened and responded to notification of a weapon (knife) at Washington County High School. Our safety protocols were enacted immediately and the situation was handled swiftly and appropriately. The object was confiscated without an altercation and no harm came to anyone.

The Washington County School District takes the safety of every child seriously. The response to this event is an example of the dedication the staff of Washington County Schools has to providing students with a safe atmosphere to learn and grow. A safe learning environment for all students, at all times remains a top priority.

Thanks,

Dr. Rickey L. Edmond
Superintendent
